AROUND the TOWNSHIP

"Things are not as they used to be. Time flies, weeks extend into months and years, and before we know it we shall be elderly." Thus ruminated Charles Brown, Decoto shoe and leather expert, as he started operations to manufacture a set of harness. "It is not often we get an order for harness these days," he continued. "A generation ago, every town had one or more shops kept busy all the time making harness. Now the craft is fast becoming extinct. It's hard to find men who know their trade. I was recently offered high wages by a large shop in the city, if I would close my shop here and move to town to make harness these days," he continued. A few old men who are slowing down, and there are no apprentices to the harness trade. But I prefer being my own boss here in Decoto to living in the city."

It was a warm spring day, and Mr. Brown glanced longingly out of the window. "This is the kind of day that invited us to go fishing when I was a boy back in Missouri," he continued. "I should like to be sitting under a maple right now and pulling in the fish. We never seem to have time or anything like that any more. Yes, things have changed, and I believe the old order the better one."

Mrs. J. E. Thane, who is a storehouse of Washington Township lore, tells us of the flocks of birds that make their appearance yearly—almost always on the same date. "When the robins come," said she, "we feel that spring is here. The robins came three years ago, a swept down on the native toyon berry bushes. In a few days the limbs were bare. Then they tackled the berries in the popper trees. Later came the blackbirds, five hundred or them, and swarmed over my elephant ivy, devouring the black ivy berries that had been curing through the winter months. They stayed about two weeks. Two months later they will be back for the native seeds that will ripen meanwhile. Last week the first oriole came along with his unmistakable song. We all heard it. Later we shall have the swallows. The oriole always alights in the same tall tree. The Patterson ranch of 4000 acres has been made a bird refuge, and the birds hereabouts seem to know it. Some years ago pheasants were the style and after a time a number of these brilliant birds were liberated. There is a rigid rule that shall not be shot. Last week we saw a flock of pheasants near the Swiss colony seemingly unafraid. There are half a dozen or more families of humming birds around us now, and the hanging birds are beginning to appear. One humming bird pair builds its nest every year in the same tree, and the male has the sweetest little song. The hanging birds build a new story on their nests each year, entering from the top, until they have three or four stories. Their nests are lined with hair, downy feathers and grass. The linets, with their tinge of iridescent red, have such a lovely song. The wild canaries are appearing among the yellow mustard plants. One of the most beautiful drives on which to see the birds is along the main road between Irvington and Newark. For two and a half miles it is lined with eucalyptus trees, yet the view is exquisite of the shimmering bay and the green hills. And the birds are everywhere. The larks are singing now."

Woman's Mind Faster Than Man's, Says Fencing Master

Crossing swords with a quick-witted woman is dangerous business says Capt. Jean St. Maurice, fencing expert. He points out that a woman's mind works a fraction of a second faster than a man's, "and with rapiers crossed, it's the split seconds that count."

The weaker sex can hold its own in fencing, he says, for "it's the only sport that depends on brain rather than brawn."

Cottons and Linens Go Style-High Slip and Pantie Set

By CHERIE NICHOLAS

Made in Quick Time

PATTERN 9662

COMES spring! By the signs of the times in fashion's realm you know it. When the new cottons and linens announce their arrival and when to celebrate the event, merchants and style creators hold high carnival in the way of style-revealing previews, then be assured that spring is here no matter what the calendar and the elements at large may have to say.

As a tonic that will revive faded and winter-weary spirits like magic we know of none better than the new spring and summer fashions created of refreshing, crisp and dainty wash fabrics—the new prints, sheer and otherwise, the gloriously colorful rough cottons that tailor so beautifully and the exotic printed linens that bespeak India, Tahiti, and picturesque Tyrolean peasantry.

In the advance showings there is a cotton or linen for every occasion, sporty, tailored, formal or otherwise. Dresses, suits, ensembles for morning, for street, for afternoon wear, for dinner, dancing, active spectator sports, all are included in the spring and summer parade of stylish cottons and linens. Children's fashions play a big part in the displays of spring and summer cottons and linens.

Front page news in regard to linens and cottons is they have gone that highbrow they have entered society in the form of lovely gowns as pretentiously styled as finest silks and woolsens. Then, too, as media for smart tailored suits, cottons that are as handsome-looking as woolsens and linens (the new non-crush and non-wrinkle kind) are featuring big this season.

Outstanding among the new wide-

ly heralded fabrics are shantungs, hand-blocked linens, printed piques, lace that lends itself to tailoring, blistered sheers, and rough cottons and countless other attractive washable weaves. Plaids, stripes, checks, gorgeous floral patternings and interesting geometric motifs often of leaf influence, go to make up vast print collections.

Color is literally on the rampage with the primary hues strongly evident and pastels retaining their importance. Designers express enthusiasm for dark monotonies with high-contrast contrasts. Brown, black, the darker greens and wine shades, are especially promoted as key colors. Two-piece suits with black skirts topped by bright colored or white jackets are expected to enjoy wide vogue during the coming months.

The attractive models pictured are positive proof that cottons and linens are going style high this season. This stunning suit of rough-surfaced plaid cotton and the frock of printed linen called forth much admiration from an enthusiastic audience who witnessed a most brilliant and dramatically staged style revue and cotton carnival held recently in Chicago in the famous Merchandise Mart, where it is claimed more floor space is devoted to merchandise and fashion interests than any other building in the world.

A dark blouse is worn with the plaid suit. The charming linen frock in navy with red and white checkings is enlivened with heavy bright red braided frog fasteners on the blouse, thus sounding a voguish note.

PADLOCK AND KEY

By CHERIE NICHOLAS

Here is the frock of your day dreams, a fitting theme for a happy spring-song. It is of rose colored linen with dark stitched linen belt. Despite the fact that it's leap year the young lady in the picture is taking no chances with her affections and so she puts a decorative padlock above her heart (see it on the clever pocket) and another on the corresponding pocket on her skirt. Then she tucks the key in her belt as she models this smart frock in a preview of spring and summer styles introduced during a cotton and linen carnival held recently in Chicago at the Merchandise Mart.

8 Basic Colors Adopted for Women's Fall Shoes

Five of the colors have been repeated from recent seasons. They are marrona, marine blue, chardron, Oriental oxblood and Araby green. The three new colors, which have not been named as yet, consist of a ginger type of brown, a russet brown and a dark gray.

Bright Accents

A bright chiffon scarf, a two-toned sash or a bow necklace of contrasting color are smart on dark velvet gowns.

Nipponese Typists Have but 2,000 Characters to Master

The Nipponese manipulators of typewriters have to struggle with a keyboard of 2,000 characters to be picked out by hand. The slugs have individual compartments in a sliding tray. The stenographer must press a knob in picking out these individual signs of the Katakana Hiragana forms.

Characters which once were pictured have been reduced to their simplest forms on the typewriter and now represent ideas only when placed in sound and thought sequence. When the knob is moved directly over the selected character, pressure is exerted. A metal arm pushes across a tiny ink roller and against the paper which is rolled on a drum. The drum shifts and revolves as the letter progresses.—Cleveland Plain Dealer.

Pawning Wives Great Idea Till Mates Want 'Em Back

Husbands of Peking, China, who thought the idea of pawning their wives a great one, now are appealing to the police to get their mates back. They say that when they were ready to repay the loan they could not redeem the wives. The trouble is not with the lenders, but with the women themselves who refuse to return to their erstwhile husbands on a variety of pretexts. Above all, they accuse their husbands of harboring the design of sending them to Manchukuo next, and state that, although they are prepared for everything in reason, that is a step to which as patriotic Chinese women they can never agree. There is no law dealing with this particular form of pawn-broking.

Half cup of lemon juice
4 eggs
Half cup butter
20 graham crackers.
Beat egg yolks, add milk. Add lemon juice and rind. old in stiff beaten egg whites. Roll graham crackers. Mix resulting crumbs in half cup melted butter, saving out 1 tablespoonful of crumbs. Put cracker-butter mixture in bottom of 12-inch spring form. Put in rest of mixture and sprinkle rest of cracker crumbs over top. Bake in moderate oven, 27 degrees, for 40 minutes. Recipe serves eight.

THE person to ask whether the preparation you or your family are taking for the relief of headaches is SAFE to use regularly is your family doctor. Ask him particularly about GENUINE BAYER ASPIRIN.

He will tell you that before the discovery of Bayer Aspirin most "pain" remedies were advised against by physicians as bad for the stomach and, often, for the heart. Which is food for thought if you seek quick, safe relief.

Scientists rate Bayer Aspirin among the "fastest methods yet discovered for the relief of headaches and the pains of rheumatism, neuritis and neuralgia. And the experience of millions of users has proved it safe for the average person to use regularly. In your own interest remember this: GENUINE BAYER ASPIRIN at any drug store—simply by asking for it by its full name, BAYER ASPIRIN. Make it a point to do this—and see that you get what you want.

Two Niles Boys On San Jose Ball Team

NILES.—George Dundas and Wesley Raso, Niles boys, are members of the San Jose State Teachers college freshmen baseball team, according to recent advices from that institution.

Dundas is a first baseman of class and was varsity material this year until the San Jose school decided to abide by Pacific Coast Conference rules and have fresh teams in all sports. Dundas is registered as a freshman.

According to baseball coach Joe Blacow, Dundas is the most likely prospect to fill Al Linder's shoes at the initial sack since the latter left San Jose to play pro ball.

Raso is a capable candidate for either short stop or the outfield. The first year team is under Coach Joe Blacow, local 7/2 baseball figure, and Francis Pura, varsity short stop handles the boys directly.

The frosh nine is a crack outfit, having just started their season, but knocking over the first three opponents they clashed with.

Masonic Home News

— by —
JAMES H. HEATH

MASONIC HOME, Decoto.—
Friendship Masonic lodge at San
Jose brought sheaves of cheer to
the home family Saturday after-
noon, by providing a colorful band
concert, fancy dances and other
features by 150 of the pupils of
the San Jose studio of the musical
Olmstead family. The presenta-
tion was under direction of Prof.
and Mrs. Olmstead.
Age of the entertainers ranged
from three to 16 years. All were
in fetching costume. The show
drew a large audience, the mem-
bership of the home being aug-
mented by the parents of the
children. The only slip was when
a daring young gentleman of
three years lost his nerve after
riding a wooden horse to the
center of the stage failed to click
with the singing of his song.
At the close of the colorful en-
tertainment, 177 of the kiddies
were treated to refreshments
which included hot chocolate pro-
vided by the home, and ice cream
and cake by the Olmsteads, the
service being under the motherly
direction of Mrs. Cornelia Beren-
stein of Berkeley, who has been
the efficient head of the home
special refreshment service for a
number of years.
The "wind up" of the show was
the staging of a few old time
dances for the visitors by mem-
bers of the Happy Hour club, act-
ing as hosts. The music was by
the home "One Man Band," of
which Abe Hamblin is the "whole
cheese." Elroy H. Shank, Wor-
shipful Master of Friendship
lodge, accompanied the visiting
entertainers.
Prizes awarded at the recent
Shawl dance of the Happy Hour
club were as follows: Most beau-
tiful shawl, Mamie Copeland,
value \$150, first; Mrs. Laure E.
Carey, second shawl the property
of Mrs. Adelaide M. Irvine; Mrs.

serman, first; Joseph M. Corson,

membership of the club. It is un-
derstood that the bandana award

PEDIGREED DOGS IN TRUCK WRECK

NILES—Two pedigreed chows
and one patrician Scotch terrier,
property of Karl Steinheimer of
Lono, Nev., were "badly awak-
ened" at 10:30 p. m. one night last
week when their "pullman" crash-
ed into the north approach of
the Stone bridge in Niles Canyon.
The "pullman" was a moving van
of the Mollerup Transport Co., of
Salt Lake City. The accident oc-
curred while the driver, John
Renshaw of Salt Lake, was mov-
ing Steinheimer's household goods
to his new home at Mountain
View.
"I was unable to see the sharp
turn at the bridge approach until
I was almost upon it," Renshaw
said. "By that time, it was too
late to swing the heavy weight
of the truck into a safe path. I
was not travelling more than 30
miles per hour at the time."
The impact against the bridge
forced the truck's motor back
against the dash and broke the
universal joint in the transmis-
sion. Renshaw and his companion,
Ernest Robinson, received cuts
and bruises. Steinheimer's house-
hold goods were damaged slightly.
The dogs set up a fearful howl.
A relief truck took the furni-
ture and dogs into Mountain View
at 2 a. m. next morning. The
damaged truck was towed to Oak-
land.

Registration Of Voters Is Pressed

OAKLAND—Pointing out that Democratic registrations in 27 counties in California are leading Republicans by less than 1500 in each county, Earl Warren, chairman, Republican State Central Committee, issued a bulletin here to all Republican county organizations urging an intensive registration drive.

"There are approximately 900,000 Republican registrations in California and you can count upon these 900,000 to vote Republican," Chairman Warren said.

"Late registrations are proving largely Republican. Therefore, it's up to us to act and act quickly toward registering at least 300,000 apathetic Republicans as practical voters."

DELINQUENT TAX RELIEF NEAR END

OAKLAND—Relief given Taxpayers of Delinquent Taxes under the Moratorium Laws will definitely end on April 20, 1936, according to Horace P. Ross, county auditor.

State law, allowing the privilege of paying delinquent taxes on the installment plan will expire on this date, except for those who have on or before April 20, 1936 made their first installment payment on subsequent installments at least once a year.

It is necessary that an installment be not less than 10 percent of the original principal sum of taxes, and that the taxes for the year 1935-36 be paid in full.

Answer the call of Spring!

Build or buy a new home with a long term loan ... repay like rent -

Weather conditions as well as housing conditions favor the home builder. Spring weather is ideal for building. Experts say there is a housing shortage. Rentals have been going up, yet prices in the construction industry are still attractive.

Home financing, too, is attractive at this time when you arrange it under the liberal terms of a Bank of America Federal Housing Act loan. With such a loan you can arrange monthly terms over a period of 10, 15 or 20 years—terms which are as convenient as rent. But actually you are paying off the loan... you are making an investment... month after month you are building a larger equity in your own home.

So if you are planning to build your home (or to buy a home already built) consider doing it now. As a first step, see your nearest branch of Bank of America.

Pea-Shooters as Dueling Weapons Was Twain's Idea

Mark Twain once found himself a second in a duel and it was up to him to suggest the weapons to be used. His first suggestion was pea-shooters at a mile's distance. But as nobody would get hurt they wouldn't know how the duel came out. The next suggestion, axes at one foot's distance and ruled out as altogether too serious. Eventually he got them to accept small pistols at a comparatively great distance.

Rid Yourself of Kidney Poisons

DO you suffer burning, scanty or too frequent urination; backache, headache, dizziness, loss of energy, leg pains, swellings and puffiness under the eyes? Are you tired, nervous—feel all unstrung and don't know what is wrong? Then give some thought to your kidneys. Be sure they function properly for functional kidney disorder permits excess waste to stay in the blood, and to poison and upset the whole system. Use Doan's Pills. Doan's are for the kidneys only. They are recommended the world over. You can get the genuine, time-tested Doan's at any drug store.

Just as soon as you complete one of this smart pair you can begin using it, for either is right for now, or Spring. Some Cry Without Tears; Others Feverish, Not Sick

Many persons cannot cry because their tear ducts do not function; many have a constant fever without any apparent disorder to cause it; many develop a temporary condition in which their fingers do not bleed when cut, while others have a form of defective vision in which they see only part of an object—such as only half of a man as he walks before them.—Collier's.
